Sai Nidhi.K – I yr BBA “A”, (2021-24 Batch)

Roopa Kumari – I yr BBA “A” (2021-24 Batch)

Date and Day: 29-07-2022 (Friday)

Tree Plantation Ceremony

Trees are an important part of every community. Our college, streets, parks, playgrounds etc. are lined with trees that create a peaceful, aesthetically pleasing environment. Trees increase our quality of life by bringing natural elements and wildlife habitats into urban settings. We gather under the cool shade they provide during outdoor activities with family and friends. Many neighbourhoods are also the home of very old trees that serve as historic landmarks and a great source of town pride.

Many colleges strategically plant trees around recreation spaces that are known for being suntraps. It allows the areas to cool down, so pupils can still enjoy the fresh air without the sweltering heat.

Trees help to clean the air we breathe. Through their leaves and bark, they absorb harmful pollutants and release clean oxygen for us to breathe.

Tree Plantation programme was held in our college campus on 29th July at 3:05 PM. The students of 1st year actively participated in the programme. NSS Volunteers, students and faculty planted saplings in our college premises. Ramesh C P sir who is NSS program officer of ISME explained about the trees, the importance of tree plantation and guided us in planting saplings. At the end of programme there was a photo session with faculty and students.

Students told that they learnt many things about the environment and also learnt to plant trees in the right way.

Everyone enjoyed every single bit of planting process and told they'll be looking forward to more such pleasant and peaceful activities in the campus.
